

Five stars plus for Dr. Wiese ★★★★★ + Dr . Wiese has been my dentist for decades. I am now in my 60's and I am so happy to have him as my dentist. Personally,

I hope he never retires. Any work I have had done, he has explained in detail the reasons. He has also given me the choice as to whether I want to go forward. He goes above and beyond working with insurance companies submitting all he needs to cover the patient. He also is involved with continuing education so he is updated on what is best for his patients. Dr. Wiese and his hygienists have been very instrumental in giving me the BEST dental care ever. Every one employed by Dr. Wiese is friendly, approachable, trustworthy, and informative; including Dr. Wiese. I actually look forward to going to my 6 month appointment . I really believe in 6 month appointments . It really helps us , in the big picture, to keep abreast of our dental situation . .
